nBari Apparels — Website Development & Manual QA

AI-Assisted Web Development & Manual QA

Role:

AI-Assisted Web Developer & Manual QA Tester

Project Overview

Designed and developed an AI-assisted e-commerce website for nBari Apparels, followed by manual QA testing of the live website. The project covered website functionality, UI/UX, responsive behavior, product galleries, shopping cart, and WhatsApp order integration.

Testing Activities

Functional & regression testing
- UI/UX testing
- Responsive/mobile testing
- Cart & order-flow testing
- WhatsApp integration testing
- Product & content validation
- Defect identification and fix verification

Artifact: Test Cases & Execution Results

Manual QA Test Cases & Execution Results

nBari Apparels — Website Testing Documentation

Test Case ID	Test Case	Steps	Expected Result	Actual Result	Status	Type
TC_UI_001	Hero image should not cut model head	Open site → View hero → Resize screen	Model face fully visible, no cropping	Model head was cut from top	Failed	UI
TC_FUNC_002	All abayas should be displayed	Open products section → Count items	11 abayas visible	Some abayas missing	Failed	Functional
TC_FUNC_003	WhatsApp link should open correctly	Add item → Click checkout	WhatsApp chat opens	404 error appeared	Failed	Functional
TC_FUNC_004	WhatsApp message should include image	Add item → Checkout → Check message	Name, price, image link present	Image missing or incorrect	Failed	Functional
TC_UI_005	Cart should close properly	Open cart → Click outside	Cart closes smoothly	Cart did not close	Failed	UI
TC_UI_006	Cart icon spacing should be proper	Add item → Observe Cart(1)	Proper spacing, no overlap	Text overlapped UI	Failed	UI
TC_UI_007	Cart header spacing should be proper	Open cart → Observe header	Proper gap between title & items	No spacing, cramped UI	Failed	UI
TC_UI_008	Hover effect on product images	Hover on product image	Smooth zoom effect visible	Hover effect missing	Failed	UI
TC_FUNC_009	Image click should open zoom modal	Click product image	Image opens in modal	Click not working	Failed	Functional
TC_UI_010	Brand content should not be one-liner	Scroll to Story/Vision/Mission	Full meaningful paragraphs	Content reduced to one-liner	Failed	UI
TC_UI_011	Spacing between sections should be balanced	Observe spacing between sections	Consistent spacing	Too much or uneven spacing	Failed	UI
TC_UX_012	WhatsApp message should include full details	Add item → Checkout	Name, price, image included	Only name sent	Enhancement	
TC_FUNC_013	Cart should reset after tab/browser close	Add item to cart → Close tab/browser → Reopen website	Cart should be empty (no items retained)	Items remained in cart after reopening	Failed	Functional
TC_026	WhatsApp Integration	Verify WhatsApp connection redirects correctly	WhatsApp should redirect user to connected business account	WhatsApp connection was not configured properly and redirect failed	Failed	Functional
TC_027	WhatsApp Configuration	Verify official business WhatsApp number is configured	Correct business WhatsApp number should appear	Dummy WhatsApp number was configured instead of official business number	Failed	Functional
TC_028	WhatsApp Order Message	Verify WhatsApp order booking message formatting	Professional formatted order message should be generated	Raw/unformatted order booking message was being sent	Failed	UI/UX
TC_029	Product Naming	Verify abaya product names are professional	Professional and consistent abaya product names should appear	Random and unprofessional abaya names were displayed	Failed	Content/UI
TC_030	Delivery Charges	Verify city-wise delivery charges are calculated and included in WhatsApp order total	Delivery charges should calculate according to selected city and appear in WhatsApp order total message	Delivery charges were missing and not included in WhatsApp order total message	Failed	Functional
TC_UI_031	Hero image should fully display on laptop without cropping	Open site → View hero on laptop → Resize screen	Full hero visible without cropping	Hero image not fully visible on laptop (cropped)	Failed	UI
TC_UX_032	Add address field in checkout process	Add item → Checkout → Enter address details	Checkout form includes address input for delivery	Address field not available in checkout	Enhancement	UX
TC_UI_033	Free delivery wording should be clear on 2 abayas offer	Observe offer badge / product page → Check promotional text	Text should clearly state 'Free delivery on 2 abayas' or 'Delivery charges free on 2 abayas'	Ambiguous text like 'free on 2 abayas' is shown	Failed	UX
TC_FUNC_034	Contact number should validate Pakistan mobile number format	Checkout → Enter contact number in form	Only valid PK format accepted (03XXXXXXXXX or +92XXXXXXXXXX), numeric only, 11 digits validation	System accepts random/invalid numbers without restriction	Failed	Functional
TC_AMD_001	Azure Drift image should display correctly	Open site → Navigate to Collection → Locate Azure Drift card → Click to open gallery	Azure Drift displays correct sky-blue kaftan image (Azure Drift.jpeg)	Image showed as broken/missing — old file 'Sky Blue Kaftan.jpg' had been deleted from GitHub repo	Fixed	Functional
TC_AMD_002	Arctic Veil should show correct main image	Open site → Navigate to Collection → Locate Arctic Veil card → Observe displayed image	Arctic Veil card shows correct abaya image (Arctic Veil.png)	Incorrect lifestyle photo (coffee cup image — Ice Blue Abaya.png) was showing as the main product image	Fixed	UI
TC_AMD_003	Photo count badge should not appear on product cards	Open site → Navigate to Collection section → Observe all product cards	No '2 PHOTOS' or '3 PHOTOS' badge visible on any product card	Photo count badge (e.g. '2 PHOTOS') was visible on product cards, cluttering the UI	Fixed	UI

Test Case ID	Test Case	Steps	Expected Result	Actual Result	Status	Type
TC_AMD_004	Gallery modal info panel should look professional	Click any abaya card → Review the right-hand info panel inside the gallery modal	Panel shows tag, name, price, divider, Product Details (fabric/length/size), About This Piece description, and Add to Cart button pinned at bottom	Info panel lacked structure — tag had a full-width gold background block and layout felt unprofessional	Fixed	UI/UX
TC_AMD_005	Scarf gallery should display colour field	Click on any scarf card → Review Product Details section in gallery modal	Colour field is visible alongside Fabric with correct value	Colour field was absent from the gallery panel for all scarves	Fixed	UI
TC_AMD_006	All scarves should have fabric, colour and description in gallery	Click on any scarf card → Review full gallery info panel	All scarves display fabric, colour, professional description, and lighting disclaimer note	Scarves had completely empty info panel — no fabric, colour or description shown	Fixed	Content
TC_AMD_007	Scarf prices should reflect updated values	Open site → Navigate to Scarves section → Check prices of Silver Mist Tassel, Ivory Lace Veil, Mocha Veil, Maroon Majesty	Silver Mist: PKR 1,000 | Ivory Lace: PKR 1,000 | Mocha Veil: PKR 1,200 | Maroon Majesty: PKR 2,200	Old prices were displaying — Silver Mist: 2,000 / Ivory Lace: 2,300 / Mocha Veil: 1,700 / Maroon Majesty: 1,900	Fixed	Functional
TC_AMD_008	Veloura should display length in gallery details	Click Veloura product card → Review Product Details section in gallery modal	Length field shows 55" in the Product Details section	Length field was missing/blank for Veloura in gallery panel	Fixed	Content
TC_AMD_009	3-Layer Khimar Naqab should appear in scarves section	Open site → Scroll to Scarves section → Locate 3-Layer Khimar Naqab card → Click to open gallery	Card displays product with correct image, price PKR 2,000, and gallery showing fabric, colour and description	Product did not exist — new product to be added	Failed	Functional
TC_AMD_010	Premium Black Chiffon Hijab should appear in scarves section	Open site → Scroll to Scarves section → Locate Premium Black Chiffon Hijab card → Click to open gallery	Card displays product with correct image, price PKR 800, and gallery showing fabric, colour and description	Product did not exist — new product to be added	Failed	Functional
TC_AMD_011	Silver Mist Tassel Scarf should show fabric and colour in gallery	Click Silver Mist Tassel Scarf card → Review Product Details in gallery modal	Fabric: Chiffon | Colour: Light Grey — both fields visible in Product Details	Fabric and colour fields were blank — data had not been provided	Fixed	Content
TC_AMD_012	Ivory Lace Veil should show fabric and colour in gallery	Click Ivory Lace Veil card → Review Product Details in gallery modal	Fabric: Georgette | Colour: White — both fields visible in Product Details	Fabric and colour fields were blank — data had not been provided	Fixed	Content
TC_AMD_013	Cart should be empty after order is placed	Add items to cart → Complete checkout form → Click Send via WhatsApp → Return to website	Cart shows 0 items and cart count in header resets to 0 immediately after order is sent	Cart retained all items after order was placed — customer had to manually clear it	Fixed	Functional
TC_AMD_014	City name should not appear in WhatsApp delivery line	Add item → Complete checkout with any city selected → Review generated WhatsApp message	Delivery line reads 'Delivery : FREE' with no city name attached	Message showed 'Delivery : FREE (Sukkur)' — city name was incorrectly appended to delivery line	Fixed	UX
TC_AMD_015	Gallery modal should support keyboard navigation	Open any product gallery modal → Press left/right arrow keys → Press Escape key	Arrow keys navigate between product images; Escape key closes the modal cleanly	Keyboard navigation was not implemented — only mouse/touch interaction worked	Failed	UX

Test Case ID	Test Case	Steps	Expected Result	Actual Result	Status	Type
TC_AMD_016	Colour disclaimer note should appear for all scarves in gallery	Open gallery for any scarf or hijab → Scroll to bottom of info panel	Disclaimer reads: 'Please note: Actual colour may vary slightly due to lighting and screen settings.'	No colour disclaimer was present for scarves — customers had no warning about colour variation	Failed	Content
TC_AMD_017	Brand name dot should be removed from header and footer	Open site on any device → Observe brand name in header → Scroll to footer and observe brand name	Brand name reads 'nBari Apparels' — no dot or punctuation between the words	Brand name displayed as 'nBari. Apparels' with an unwanted dot character	Fixed	UI
TC_AMD_018	Brand name should have left spacing on mobile screens	Open site on a mobile device → Observe brand name position in the header	Brand name has appropriate left margin and does not sit flush against the screen edge	Brand name was touching the left edge of the screen with no breathing room on mobile	Fixed	UI
TC_AMD_019	Cart button and menu toggle should have proper spacing on mobile	Open site on a mobile device → Observe Cart button and hamburger menu icon in header	Clear and comfortable spacing between Cart button and menu toggle; hamburger icon fully visible	Menu toggle was pushed to the extreme right corner and hamburger lines were being clipped/cut off	Fixed	UI
TC_AMD_020	Mobile gallery modal should not cover full screen — details should be visible	Open site on mobile → Click any abaya or scarf card → Observe gallery modal layout	Image occupies approximately top half of screen; product name, price, and details panel are visible below without any scrolling required	Product image covered the entire screen on mobile — details panel was hidden and new users had no indication they needed to scroll to find it	Fixed	UI/UX
TC_AMD_021	Scroll hint should appear in mobile gallery to guide users	Open site on mobile → Click any product card → Observe area between image and details panel	Animated 'Scroll for details' hint with gold chevrons appears below the image, disappears once user scrolls	No visual cue existed to indicate scrollable content below the product image on mobile	Failed	UX
TC_AMD_022	Field spacing in WhatsApp message should be consistent	Add item → Complete checkout → Review generated WhatsApp message in delivery details section	Name, Phone, City, Address and Notes fields all align at the same column with uniform spacing after the colon	City field had noticeably less space before the colon compared to other fields — inconsistent alignment	Fixed	UI/UX
TC_AMD_023	WhatsApp message should not have excessive blank lines	Add item → Complete checkout → Review full generated WhatsApp message	Message is compact and readable — sections separated by divider lines only, no unnecessary blank lines	Excess blank lines appeared between sections of the WhatsApp order message making it unnecessarily long	Fixed	UX
TC_AMD_024	Gallery modal should close automatically after adding product to cart	Open any product gallery → Click 'Add to Cart' button inside the gallery modal	Button turns gold and shows 'Added to Cart ✓' confirmation, then gallery closes automatically after ~1 second	Gallery modal stayed open after adding to cart — customer had to manually close it to return to browsing	Fixed	UX
